

# SJH Advanced Critical Care Echocardiography Course

**Friday 28 & Saturday 29 March 2025, St. James's Hospital, Dublin**

This 2-day EDEC level course is designed for clinicians aiming to acquire advanced echocardiography knowledge and skills to enhance their management of acutely unwell patients. Course participants should possess basic echocardiography skills (performed  $\geq 20$  basic level scans) and have completed, or be actively pursuing, FUSIC Heart, BSE Level 1 or EDEC accreditation. Places are strictly limited to ensure optimal course trainer to participant ratios.

The course incorporates interactive lectures and hands-on transthoracic and transoesophageal scanning with advanced faculty to cover a range of core topics, including:

Extended transthoracic 2D views	Spectral Doppler in haemodynamic assessment
Basic transoesophageal probe handling and views	Extended left ventricular assessment
Introduction to colour Doppler physics	Extended right ventricular assessment
Valvular assessment using 2D and colour Doppler	Pericardial effusion and cardiac tamponade

## Course fee:

**Doctors in training: €500**

**Consultants: €750**
